Dear Friend:

Your donation of food is so greatly appreciated not only by our organization, but especially by the children.

Let me tell you about David. He spends time going through trash cans because he is so disturbed that his small sister and two younger brothers are always hungry. David is embarrassed but wants to help his mother who is doing her very best on her meager income

We are now able to help David and his family because of friends like you. What a delight it is to see the change in attitude of a whole family because of the food distribution program we have in Southern California.

Each day we are now able to provide food for about 33,000 meals. Thank you for your part

Cordially,

Roy McKeown  
President
